- (a) Excludes deaths reported as 'unknown cause', where there is insufficient evidence to assess, subject to a Coroner's finding, whether the cause of death was natural or unnatural. Deaths may be included which are subject to finalisation by the coroner, and may be amended in future reports. Deaths occurring in past years where cause of death was recorded as unknown at the time of the report but were subsequently determined to have been from either natural or unnatural causes are updated in the relevant year's figures and rates when known.
