Rent and Sales Summary

Rent: December quarter 2014

Trends for new bonds at state and regional levels

Over the quarter, the median rent for all dwellings in Greater Sydney remained unchanged over the quarter at \$490. The median rent increased in the Inner Ring by \$10 to \$590, decreased in the Middle Ring by \$5 to \$495 and increased in the Outer Ring by \$10 to \$430. Compared to the previous year, the median rent increased by \$10 in the Inner Ring, \$15 in the Middle and \$20 in the Outer Rings.

The median rent for two bedroom flats/units increased over the year in Greater Sydney by \$10 (2.0%) to \$500 per week and remained unchanged over the quarter. The rent increased over the year by \$20 (3.2%) to \$640 in the Inner Ring, \$20 (4.4%) to \$470 in the Middle Ring, and by \$10 (2.6%) to \$400 in the Outer Ring. The median rent increased by \$20 (5.8%) in the rest of the Greater Metropolitan Region (GMR) to \$320. Over the quarter, the median rent increased by \$20 (3.2%) in the Inner Ring, by \$5 (1.3%) in the Outer Ring but remained unchanged in the Middle Ring and in the rest of the GMR.

For a three bedroom separate house the median rent increased by \$10 (2.3%) over the year to \$450 in Greater Sydney but remained the same over the quarter. Over the year, the median rent increased by \$23 (2.8%) to \$823 in the Inner Ring and by \$20 (5%) to \$420 in the Outer Ring. The median rent remained unchanged in the Middle Ring and the rest of the GMR. Over the quarter, the median rent increased by \$8 in the Inner Ring, but remained unchanged in the Middle Ring, the Outer Ring and the rest of GMR.

The median rent for one bedroom flats/units increased over the year in the Inner Ring by \$10 (2.0%) to \$500, in the Middle Ring by \$20 (4.8%) to \$440, in the Outer Ring by \$10 (3.0%) to \$340, and in the rest of the GMR by \$20 (9.1%) to \$240. Over the quarter, the median rent remained unchanged in the Inner Ring, decreased by \$10 in the

Middle Ring, and increased by \$10 in the Outer Ring and \$5 in the rest of the GMR.

The median rent for two bedroom separate houses increased over the year by \$10 (1.6%) in the Inner Ring to \$650, by \$20 (4.7%) in the Middle Ring to \$450, by \$10 (2.9%) in the Outer Ring to \$350 and by \$5 (1.6%) to \$325 in the rest of the GMR. Over the quarter, the median rent remained unchanged in the Inner Ring and the Outer Ring but decreased by \$10 (2.2%) in the Middle Ring and by \$10 (3.0%) in the rest of the GMR.

Outside of the GMR, the median weekly rent for two bedroom flats/units remained unchanged over the year and the quarter at \$230 per week. The median rent for three bedroom separate houses remained unchanged at \$300 over the quarter and over the year.

The number of new bonds lodged over the quarter in Greater Sydney decreased by 0.5% to 48,787 bonds. The number of bonds lodged decreased by 1.4% in the Inner Ring, by 1.3% in the Middle Ring, by 8.1% in the rest of GMR but increased by 1.0% in the Outer Ring. Over the year, the number of new bonds lodged increased by 7.0% in Greater Sydney, 8.5% in the Inner Ring, 6.6% in the Middle Ring, 6.1% in the Outer Ring and 0.2% in the rest of the GMR.

Notable rent movements for local government areas (LGAs)(ignoring small samples)

For two bedroom flats/units, the largest annual increases in median rent in Greater Sydney were recorded in Hawkesbury (14.3%), Pittwater (11.5%) and Rockdale (11.1%). Within the rest of the GMR, the biggest annual increase was 11.5% in Shellharbour and a decrease of 5.4% was observed for Port Stephens.

The largest increases over the year in median rent for three bedroom separate houses in Greater Sydney were

Trends in Median Rents – Sydney and NSW

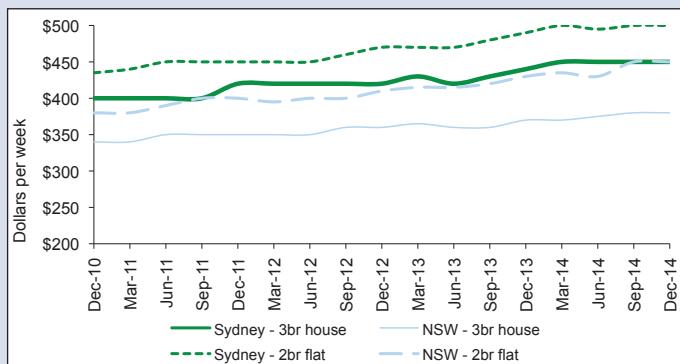

Table 1. Median Rents and Sales – All Dwellings

	Inner Ring	Middle Ring	Outer Ring	Greater Sydney	NSW
Rent (\$/wk)					
Dec Qtr 2014	\$590	\$495	\$430	\$490	\$430
Qtly change	1.7%	-1.0%	2.4%	0.0%	2.4%
Ann. change	1.7%	3.1%	4.9%	2.1%	4.9%
Sales (\$'000s)					
Sep Qtr 2014	\$861	\$730	\$550	\$650	\$525
Qtly change	0.1%	0.0%	0.9%	0.0%	-1.9%
Ann. change	13.3%	15.0%	12.9%	11.1%	7.1%

recorded in Manly (13.1%), Ku-ring-gai (9.6%), Sydney (8.9%) and Warringah (8.4%).

For one bedroom flats/units, the largest annual increases in median rent were observed in Rockdale (18.4%), Ryde (14.6%), Randwick (8.9%) and Bankstown (8.7%). The increase in Rockdale and Ryde are most likely due to lettings in newly developed blocks. Within the rest of the GMR, an increase of 13.6% was observed for Wollongong.

For two bedroom separate houses, the largest annual increase in Greater Sydney was 10.2% recorded in Sutherland.

Amongst the 34 Rural Statistical Areas Level 3 (SA3), three SA3s recorded annual increases in median rent for two bedroom dwellings of 10% or more. Upper Hunter recorded a decrease of 20% for two bedroom dwellings and 16.7% for three bedroom dwellings.

Within Greater Sydney, 35 LGAs recorded a growth over the year in the number of new bonds lodged and 7 LGAs recorded falls in the number of new bonds lodged.

Note: These results are based on the statistics of new bonds lodged in the period.

Sales: September quarter 2014

The median sales price for all dwellings across Greater Sydney increased by 11.1% over the year but remained unchanged over the September quarter. Over the quarter, the median sales price increased by 0.1% in the Inner Ring and 0.9% in the Outer Ring, remained unchanged in the Middle Ring and decreased by 2.3% in the rest of the GMR. Over the year, the median sales price increased by 13.3% in the Inner Ring, 15.0% in the Middle Ring, 12.9% in the Outer Ring and 4.3% in the rest of the GMR.

For non-strata dwellings in Greater Sydney, the median sales price decreased by 2.0% for the quarter and increased by 10.8% over the year. Over the quarter, the

sales price increased in the Inner Ring (6.2%), the Middle Ring (5.0%) and the Outer Ring (0.5%) but decreased in the rest of the GMR (0.8%). The largest quarterly increase of 21.0% was recorded in Ashfield followed by 15.7% in Strathfield and 15.3% in Manly. Over the year, the sales price increased in the Inner Ring (16.0%), in the Middle Ring (21.7%), in the Outer Ring (11.6%), and in the rest of the GMR (5.7%). The largest annual increase was 30.3% recorded in Ryde.

In the rest of GMR, Port Stephens (-7.9%) recorded a decrease over the quarter. Over the year Shellharbour recorded the highest increase (15.0%) followed by Kiama (12.7%).

For strata dwellings in Greater Sydney, the median sales price increased by 1.7% for the quarter and by 11.1% over the year. Over the quarter, the median sales price increased by 2.2% in the Inner Ring and 2.9% in the Outer Ring, remained unchanged in the Middle Ring and decreased by 5.1% in the rest of the GMR. The largest quarterly increase was recorded in North Sydney (11.0%) followed by Auburn (10.2%), whilst the largest quarterly decrease was 14.6% in Mosman. Over the year, the median sales price increased in the Inner Ring (10.6%), in the Middle Ring (10.1%), in the Outer Ring (11.8%), and remained unchanged in the rest of the GMR. Over the year, Burwood recorded the largest increase of 22.5% followed by The Hills Shire (18.9%), whilst Botany Bay recorded the largest decrease (2.0%).

In the rest of GMR, Newcastle recorded the greatest increase over the year (14.6%) followed by Port Stephens (9.3%).

(a) the numbers shown on the map on page 9; (*) includes 'not stated' and 'other' dwelling types.

Statistical Subdivisions (SSDs) in NSW

The numbers on map left refer to the SSD indices in the left margin of Tables 5, 6, 11 and 12. The numbers on the insets refer to LGA indices in the Greater Metropolitan Region Tables.

Inset 1. Local Government Areas (LGA) in the Greater Metropolitan Region

Inset 2. LGAs in the Inner and Middle Rings

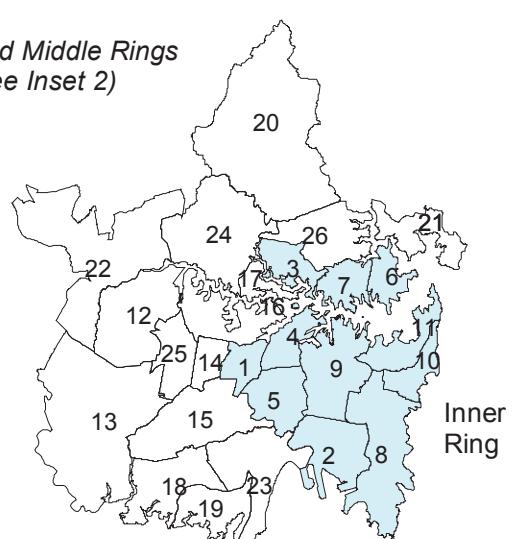

Table 8. Sale Prices — Greater Metropolitan Region — All Dwellings — September Quarter 2014

Explanatory notes

1. Statistics in this Report are based on two sources. Rental statistics are derived from information provided on the bond lodgement form that is lodged with Rental Bonds (RB), NSW Fair Trading, Office of Finance and Services, Department of The Treasury. Sales statistics are derived from information provided on the 'Notice of Sale or Transfer of Land' form that is lodged with Land and Property Information (LPI), Office of Finance and Services, Department of The Treasury.
2. The geographic areas for reporting data are based on the Australian Statistical Geography Standard (ASGS) of the Australian Bureau of Statistics (ABS) (2011) and on the Australian Standard Geographical Classification (ASGC) of the ABS (2011). For both the rent and sales data sets, the address of each dwelling is coded to the Statistical Local Area (SLA) under the ASGC (2011) and then aggregated to the Local Government Area (LGA). The address of each dwelling is also coded to the Statistical Area Level 2 (SA2) under the ASGS (2011) and then aggregated to Statistical Areas Level 3 and Level 4 (SA3, SA4). Of the 28 SA4 in NSW, 15 aggregate to Greater Sydney and 13 aggregate to Rest of NSW. The combined area of Greater Sydney and the LGAs of Newcastle, Cessnock, Maitland, Port Stephens, Lake Macquarie, Wollongong, Shellharbour and Kiama is defined as the "Greater Metropolitan Region (GMR)". The LGAs in Greater Sydney are also grouped into Inner, Middle and Outer rings. "Rest of NSW" as used in this publication is that part of the state not in the GMR.
3. For confidentiality, we do not report rents and sale prices in any geographical area where the number of new bonds or sales is 10 or less. Statistics calculated from samples of sizes between 10 and 30 are shown with an 's' to indicate small sample in the relevant table. We suggest data based on small samples are treated with caution, particularly when assessing quarterly and annual changes.
4. The median is the value that divides a set of ordered numbers equally into a bottom half and top half. Unlike means, medians are not significantly affected by unusually high or low values. Therefore median values are better measures of central tendency. In addition, some tables provide first and third quartiles. These are the 25 and 75 percentiles in the set of ordered numbers.

Rent statistics

1. Total bonds held refer to those live bonds at the last date of the quarter. The total number of bonds held by RB does not equal the total number of rental properties. The two main reasons are that at any given time some properties are vacant, and secondly that there are cases where bonds are not always required by a landlord from their tenant, for example for informal lettings.
2. When new bonds are lodged with RB, rental values, dwelling type and bedroom number are not always provided. Typically, about 5% of these bonds do not provide rental values.
3. Rental bonds lodged by Community Housing Organisations (CHOs) have been identified and excluded from the calculation of rent statistics back to June 2009. CHOAs have been lodging bonds with the RB for over a decade for dwellings that they manage and which they rent to tenants at below market rents (usually at least 20% below market rents). Over the last three years (since 2011) the inclusion of rental bonds submitted by CHOAs for social or affordable housing tenancies has had a measurable effect on median rents for the locations where there are substantial pockets of community housing. Hence these bonds are now excluded from the rent calculations so that the rents published reflect new private rentals only and are not diluted by lower social housing rents.

Sales statistics

1. Sales are reported according to their contract date. Generally, the vendor and purchaser agree on the sale price on or before the contract date. In many instances, there is a considerable time lapse between the contract and transfer dates. Therefore in assigning a time period to each property sale, the contract date is considered to be more relevant for market price analyses than the transfer date.

2. The sales data are reported three months after the end of the reference quarter, when about 80% on average of the contracted sales have been notified. Waiting a further three months i.e. six months after the end of the reference quarter increases the notifications to about 90%. However, statistical testing on sale price means and medians after three months and six months of notifications do not show any significant difference for most of the LGAs.
3. The quarterly and annual changes are based on revised figures for the previous quarters. Due to the time lapse between the contract date and when the sale is notified, the previous quarters' figures will usually change each quarter as more sales are reported.
4. A variety of factors contribute to anomalies in the sale price attributed to particular properties. To ensure that the statistics reflect the market price of a typical residential dwelling the lower and upper 5% of sale prices for each LGA have been excluded. At LGA level, this does not affect the median but does remove outliers in the calculation of the mean and moves the first and third quartiles slightly towards the median. The impact at higher levels of aggregation is less predictable but is likely to provide a more reliable indication of sale prices.
5. Strata title properties usually include town houses, terraces/villas, flats/units (multi-unit dwellings) whereas non-strata title properties refer to separate houses. However, any multi-unit dwelling with a Torrens title would be counted as a non-strata property.

Changes to the geography

Changes were introduced into the September 2012 issue of the Rent and Sales Report to reflect the adoption by the ABS of a new Statistical Geographic Framework described in the Australian Statistical Geography Standard (ASGS) (2011). Details of the new ASGS are available at www.abs.gov.au, cat. no.1270.0.55.001. The changes incorporated into the report are:

1. The Sydney region is now referred to as "Greater Sydney and is defined as the aggregation of 15 Statistical Areas Level 4 (SA4) of the ASGS (2011). Greater Sydney approximates the Sydney Statistical Division (SD) under the former ASGC (2006) although the boundaries are not exactly coincident (the differences are marginal).
2. The Greater Metropolitan Region (GMR) is now defined as Greater Sydney combined with the Local Government Areas (LGAs) of Newcastle, Cessnock, Maitland, Port Stephens, Lake Macquarie, Wollongong, Shellharbour and Kiama.
3. "Rest of NSW" as used in this publication is that part of NSW that is not in the GMR. Rent and sales statistics in "Rest of NSW" are now reported by Statistical Area Level 3 (SA3) of the ASGS (2011) rather than by SSD of the ASGC (2006);
4. Cessnock and Kiama LGAs are reported in both the GMR and the "Rest of NSW" figures due to the boundaries of the Lower Hunter and Southern Highlands SA3s crossing the boundary of the GMR.

Changes were introduced into the December 2013 issue of the Rent and Sales Report to reflect the adoption by the ABS of a new Australian Standard Geographical Classification (ASGC 2011) in parallel with ASGS (2011). The names of two LGAs were changed: Baulkham Hills is now known as The Hills Shire and Hastings is now known as Port Macquarie-Hastings. While there have been no boundary changes since 2005, the implementation of updated concordance tables has improved the accuracy of boundary definition which has led to changes in some LGAs. Impact has been greatest in the LGAs of Hawkesbury, Parramatta, The Hills Shire, Lane Cove, North Sydney, Willoughby, Cessnock and Maitland. As a consequence, application of the new concordances has been backcast to December Quarter 2012.

A trend series of median rents and median sales by LGA for the Greater Metropolitan Region is available on the Housing NSW website at www.housing.nsw.gov.au. The trend series goes back to the March 1990 quarter for rents and March 1991 for Sales.

For further information about these statistics contact Department of Family and Community Services Analysis and Research (02 8753 8495).
