Rent and Sales Summary

Rent: June Quarter 2010

Trends for new bonds at state and regional levels

During the June 2010 quarter the median rent for all dwellings increased by \$10 to \$410 in the Sydney Statistical Division (SD). The median rent increased by \$20 to \$500 in the Inner Ring and by \$20 to \$420 in the Middle Ring, but remained unchanged in the Outer Ring (\$350). Compared to the previous year, the median rent increased in the Sydney SD by \$20, in the Inner Ring by \$30, and in both the Middle Ring and the Outer Ring by \$20.

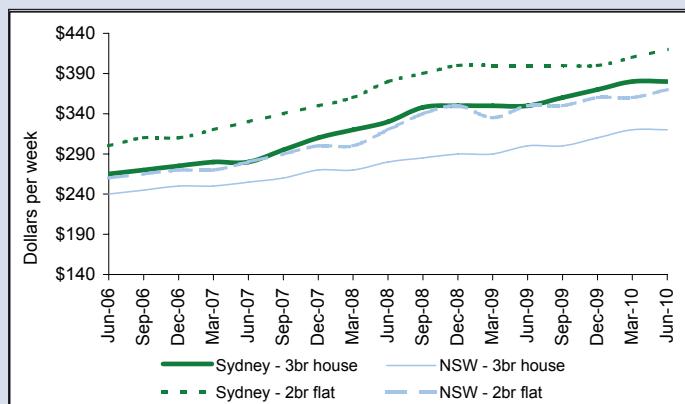

Over the year the median rent for two bedroom flats/units increased across the State, with the largest increase occurring in the Rest of GMR (8.3%), followed by the Inner Ring (8.0%), the Outer Ring (6.3%) and the Middle Ring (5.4%). Over the quarter, the median rent increased in the Inner Ring by 3.8% and the Middle Ring by 2.6%, but remained unchanged in the Outer Ring and the Rest of GMR.

Over the year the median rent for three bedroom separate houses increased in the Inner Ring by 8.5%, in the Middle Ring by 9.3%, in the Outer Ring by 9.4%, and in the Rest of GMR by 6.7%. Over the quarter the median rent increased in the Inner Ring by 6.1% and the Middle Ring by 2.2%, but remained unchanged in the Outer Ring and the Rest of GMR.

The median rent for one bedroom flats/units increased over the year in the Inner Ring by 5.0%, in the Middle Ring by 8.8%, in the Outer Ring by 8.0% and in the Rest of GMR by 5.9%.

The median rent for two bedroom separate houses increased over the year in each of the Rings, ranging from 3.9% in the Middle Ring to 10.0% in the Inner Ring. The median rent increased in the Rest of GMR by 3.8%. Over the quarter the median rent increased in the Outer Ring by 2.7%, remained unchanged in the Inner Ring and declined in the Middle Ring and the Rest of GMR by 1.3% and 1.8% respectively.

Trends in Median Rents – Sydney and NSW

Outside the GMR the median rent for two bedroom flats/units remained unchanged over the quarter, but increased by 5.6% over the year. The median rent for three bedroom separate houses remained unchanged over the quarter, but increased by 4.0% over the year.

Over the quarter, the number of new bonds lodged fell in both the Sydney SD (2.6%) and the Rest of GMR (9.3%). Within the three Rings, the number of new bonds increased in the Outer Ring by 3.8%, but declined in both the Inner and Middle Rings by 6.7% and 4.9% respectively. Over the year the number of new bonds lodged increased in the Middle Ring by 0.8% but fell in the Inner Ring by 0.7%, the Outer Ring by 3.9%, and in the Rest of GMR by 4.9%.

Notable rent movements for local government areas (ignoring small samples)

For two bedroom flats/units the largest annual increases in median rent in the Sydney SD were recorded in Wyong (19.3%), Campbelltown (15.0%), and Bankstown (13.3%). Seven of the 43 LGAs in the Sydney SD recorded annual increases of 10% or more, compared to 5 LGAs with 10% or more increases for the previous quarter (March 2010). Within the Rest of GMR the biggest annual increase was 15.5% in Wollongong.

Over the year fourteen LGAs experienced a 10% or higher increase in median rent for three bedroom separate houses in the Sydney SD. This compares with 6 LGAs recording 10% or more increases in the March quarter. The largest increases were observed in Willoughby (17.6%), Ryde (14.6%), and Marrickville (12.7%). Within the Rest of GMR the largest annual increase was recorded in Port Stephens at 13.2%.

Within the Sydney SD, eight of the 43 LGAs recorded a 10% or higher annual increase in median rent for one bedroom flats/units. The largest increases were observed in Parramatta (16.4%), Ku-ring-gai (14.3%), and Manly

Table 1. Median Rents and Sales - All Dwellings

	Inner Ring	Middle Ring	Outer Ring	Sydney SD	NSW
Rent (\$/wk)					
Jun Qtr 2010	\$500	\$420	\$350	\$410	\$350
Qtly change	4.2%	5.0%	0.0%	2.5%	0.0%
Ann. change	6.4%	5.0%	6.1%	5.1%	6.1%
Sales (\$'000s)					
Mar Qtr 2010	\$655	\$520	\$420	\$490	\$418
Qtly change	1.1%	-2.1%	0.5%	-2.0%	-1.6%
Ann. change	27.2%	21.4%	16.7%	21.0%	16.1%

(13.6%). Within the Rest of GMR the largest annual increase was recorded in Newcastle at 8.3%.

Only Marrickville (17.1%) and Holroyd (11.3%) in the Sydney SD recorded an annual increase in excess of 10% in the median rent for two bedroom separate houses. Within the Rest of GMR the biggest annual increase was recorded in Cessnock at 17.1%.

Amongst the 34 Rural Statistical Sub-Divisions (SSD) only two SSDs recorded annual increases in median rent for two bedroom dwellings in excess of 10%. For three bedroom dwellings three SSDs recorded 10% plus increases.

Over half the LGAs in Sydney SD (25 out of 43 LGAs) recorded a decline in the number of new bonds lodged over the year, with only 17 LGAs experiencing a growth.

Note: These results are based on the statistics of new bonds lodged in the period.

Sales: March Quarter 2010

The median sales price for all dwellings across the Sydney SD declined by 2.0% over the quarter, but increased by 21.0% over the year. Over the quarter the median sales price increased in the Inner Ring by 1.1%, in the Outer Ring by 0.5%, and in the Rest of GMR by 1.4%, but decreased in the Middle Ring by 2.1%. Over the year the median sales price increased in all regions, ranging from 7.7% in the Rest of GMR to 27.2% in the Inner Ring.

For non-strata dwellings in Sydney SD, the median sales price fell by 4.8% for the quarter but increased by 25.5% for the year. Over the quarter the sales price increased in the Inner Ring by 12.8%, but declined in the Middle Ring and the Outer Ring by 1.5% and 0.2%, respectively. The sales price remained unchanged in the Rest of GMR. The largest quarterly increase was recorded in Strathfield (38.9%), whilst the largest decrease was recorded in Hunters Hill (17.1%). Over the year, the sales price increased in the Inner Ring by 34.2%, in the Middle Ring

by 27.7%, in the Outer Ring by 18.2%, and in the Rest of GMR by 7.4%. The largest annual increase was 59.1% recorded in Strathfield, whilst the smallest annual increase was 0.9% recorded in Mosman.

For strata dwellings in the Sydney SD, the median sales price decreased by 0.8% for the quarter, but increased by 14.9% over the year. Over the quarter the median sales price increased in the Inner Ring and the Outer Ring by 3.3% and 1.2% respectively, remained unchanged in the Middle Ring, and declined in the Rest of GMR by 1.5%. The largest quarterly increase was 12.7% recorded in Burwood, whilst the largest decrease was 6.0% recorded in Gosford. Over the year the median sales price increased in the Inner Ring by 19.1%, in the Middle Ring by 13.5%, in the Outer Ring by 9.9%, and in the Rest of GMR by 1.9%. Over the year 19 of the 43 LGAs in Sydney recorded increases of more than 10%, with Manly recording the largest increase at 36.9%.

(a) the numbers shown on the map on page 9; (*) includes 'not stated' and 'other' dwelling types.

Statistical Subdivisions (SSDs) in NSW

The numbers on map left refer to the SSD indices in the left margin of Tables 5, 6, 11 and 12. The numbers on the insets refer to LGA indices in the Greater Metropolitan Region Tables.

Inset 1. Local Government Areas (LGA) in the Greater Metropolitan Region

Inset 2. LGAs in the Inner and Middle Rings

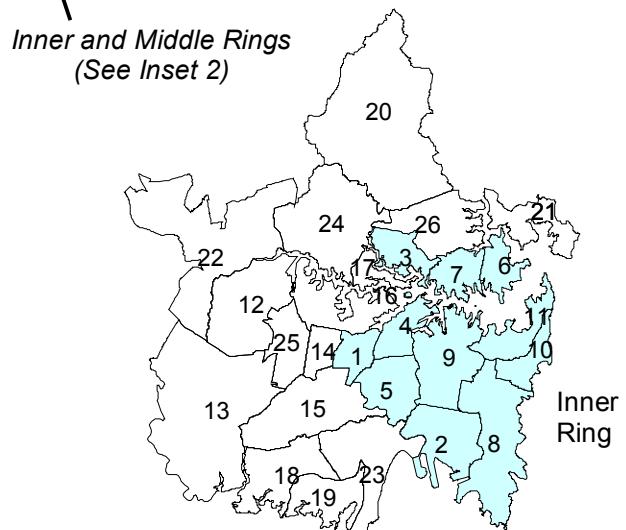

Table 8. Sale Prices — Greater Metropolitan Region — All Dwellings — March Quarter 2010

Explanatory notes

1. Statistics in this Report are based on two sources. Rental statistics are derived from information provided on the bond lodgement form that is lodged with the Renting Services Branch (RSB) of the Office of Fair Trading. Sales statistics are derived from information provided on the 'Notice of Sale or Transfer of Land' form that is lodged with Land and Property Information NSW.
2. The geographic areas for reporting data are based on the Australian Standard Geographical Classification (ASGC) of the Australian Bureau of Statistics (ABS). For both the rent and sales data sets, the address of each dwelling has been coded to the Statistical Local Area (SLA) under the ASGC and then aggregated to the LGA, SSD and SD level. The combined area of Sydney SD, Newcastle SSD and Wollongong SSD is defined as the Greater Metropolitan Region (GMR) and the LGAs in Sydney SD are grouped into Inner, Middle and Outer rings.
3. For confidentiality, we do not report rents and sale prices in any geographical area where the number of new bonds or sales is 10 or less. Statistics calculated from samples of sizes between 10 and 30 are shown with an 's' to indicate small sample in the relevant table. We suggest data based on small samples are treated with caution, particularly when assessing quarterly and annual changes.
4. The median is the value that divides a set of ordered numbers equally into a bottom half and top half. Unlike means, medians are not significantly affected by unusually high or low values. Therefore median values are better measures of central tendency. In addition, some tables provide first and third quartiles. These are the 25 and 75 percentiles in the set of ordered numbers.

Rent statistics

1. Total bonds held refer to those live bonds at the last date of the quarter. The total number of bonds held by RSB does not equal the total number of rental properties. The two main reasons are that at any given time some properties are vacant, and secondly that there are cases where bonds are not always required by a landlord from their tenant, for example for informal lettings.
2. When new bonds are lodged with RSB, rental values, dwelling type and bedroom number are not always provided. Typically, about 5% of these bonds do not provide rental values.

Sales statistics

1. Sales are reported according to their contract date. Generally the vendor and purchaser agree on the sale price on or before the contract date. In many instances there is a considerable time lapse between the contract and transfer dates. Therefore in assigning a time period to each property sale, the contract date is considered to be more relevant for market price analyses than the transfer date.

2. The sales data are reported three months after the end of the reference quarter, when about 80% on average of the contracted sales have been notified. Waiting a further three months i.e. six months after the end of the reference quarter increases the notifications to about 90%. However, statistical testing on sale price means and medians after three months and six months of notifications do not show any significant difference for most of the LGAs.
3. The quarterly and annual changes are based on revised figures for the previous quarters. Due to the time lapse between the contract date and when the sale is notified, the previous quarters' figures will usually change each quarter as more sales are reported.
4. A variety of factors contribute to anomalies in the sale price attributed to particular properties. To ensure that the statistics reflect the market price of a typical residential dwelling the lower and upper 5% of sale prices for each LGA have been excluded. At LGA level, this does not affect the median but does remove outliers in the calculation of the mean and moves the first and third quartiles slightly towards the median. The impact at higher levels of aggregation is less predictable but is likely to provide a more reliable indication of sale prices.

5. Strata title properties usually include town houses, terraces/villas, flats/units (multi-unit dwellings) whereas non-strata title properties refer to separate houses. However any multi-unit dwelling with a Torrens title would be counted as a non-strata property.

Changes to the geography

Minor changes were introduced into the December 2007 issue of the Rent and Sales Report to reflect boundary changes made by the ABS to rural statistical subdivisions (SSDs) within NSW for the 2006 Census (see map on page 9). The changes reflect the ABS Australian Standard Geographic Classification (ASGC) effective from 1 July 2006. The changes incorporated are:

1. The inclusion of the coastal strip to the south of Tweed Heads to form the new SSD Tweed Heads and Tweed Coast;
2. Replacement of the Bathurst-Orange SSD with the newly defined Bathurst SSD and Orange SSD increasing the number of SSDs from 33 to 34;
3. Some further boundary changes without name changes for a few of the other SSDs due to redefinition of the underlying statistical local areas (SLAs).

There have been no changes to local government area boundaries from the previous (2005) framework.

A trend series of median rents by LGA for the Greater Metropolitan Region is available on the Housing NSW website at www.housing.nsw.gov.au. The trend series goes back to the September 2001 quarter.

For further information about these statistics contact Housing Analysis and Research (02 8753 8495).
